

AMTEC

Applied Manufacturing Technologies, Inc.

Welcome to AMTEC Company

AMTEC is committed to improving the quality of products and services by providing high quality and cost effective products that meets the needs of our customers.

AMTEC is a leading manufacturer of Auto & Semi-Automated Custom Machines, Robotic Part Handling Systems, Assembly Machines, Hot Stamping/Heat Transfer, Pad Printing, Ink Jet Printing, Laser Marking & Engraving, Laser Cutting, Conveyors, Hot Plate Welding, Corona & Plasma Treating, Vibration Welding, Spin Welding and Ultrasonic Welding.

Our History

AMTEC was founded in 1995 with the vision to provide state of the Art Printing, Marking and Decorating equipment to the industry. Over the past 12 years it has strived to fulfill its goals. Today it is premier supplier of high productivity manufacturing systems and has earned its reputation by fulfilling its commitment one customer at a time.

Our Location

In 2005 the company moved to a larger facility in Anaheim, California to better serve its customers. This move enabled the company to undertake more projects and delivery state of the art manufacturing systems (namely: Laser Marking, Engraving, Cutting, Scribing, Pad Printing, Hot Stamping, Decorating, Welding and Turn Key Automation Systems).

Facilities

AMTEC has team of dedicated staff including engineers, technicians and customer service to support its customers to achieve 100% customer satisfaction- every customer is vital to its business. Each customer service representative is trained to provide you with the information and support you need to select the proper product.

Vision

Our vision is to become the # 1 choice of our customers in our field of expertise by meeting and/or exceeding our customer's requirements 100% of the time.
