

AMTEC

Applied Manufacturing Technologies, Inc.

Contract Manufacturing Services

AMTEC provides contract manufacturing services across a wide variety of spectrum and different components. All of us at AMTEC are committed to providing quality products & service by striving to exceed the needs & expectations of our customers.

Your specs are our business.

At every step our employees work to supply you with the exceptional component your customer demands. We manufacture the product per your specifications.

Commitment beyond compliance.

We aren't content just to meet industry standards. We go beyond them with proprietary manufacturing processes that produce quality products per specs and On-Time delivery of the products.

Whether you need a product shipped for overnight delivery, a custom manufactured product in a rush, you can trust that every effort will be made to satisfy your need in the most efficient and expedient manner possible.

We feel exemplary manufacturing service does not end with product delivery, but continues throughout the lifetime of your partnership with AMTEC, which is what brings our customers back again and again.

Explore the many advantages of partnering with AMTEC for your outsourced manufacturing needs. Our custom manufacturing services division highlights include:

- [Pad Printing](#)
- [Laser Marking/Engraving](#)
- [Ultrasonic Welding](#)
- [Hot Stamping/Heat Transfer](#)
- [Heat Staking](#)
- [Ink Jet Printing](#)

**Your Reliable Source for High Productivity
Manufacturing Systems & Services**

Quality Policy Statement.

AMTEC aims to exceed customer's expectations in the services and products it provides. We accomplish this by:

- Continuously improving our operations to produce top of the line products and services.
- Having a quick response to varying market requirements.
- Providing a motivational work ambience, which rewards innovation and employee excellence.
- Designing safe and effective products that better the lives of people.

At AMTEC, we pride ourselves in developing solutions that work. This is most apparent when we are working on projects involving assembly, engraving, printing, welding or a combination of operations we are eager to work with you on developing a process that makes your company more competitive.
