

AMTEC

Applied Manufacturing Technologies, Inc.

Infrared 1064nm Series for Flash-Lamp Lasers

This series is ideal for marking and micro-marking steel and non-ferrous metals and alloys. It is also for inorganic non metals, ceramic, diamond, and silicon materials.

- 400 Watts CW & 200 Watts Q-Switched power
- Repetition rates up to 100 KHz
- TEMoo, Low Order or Multimode operations
- Superior beam-pointing stability

Infrared 1064nm Series for Diode-Pump Lasers

This series is ideal for marking and micro-marking steel and non-ferrous metals and alloys. It is also for inorganic non metals, ceramic, diamond, and silicon materials.

- 100 Watts CW & 70 Watts Q-Switched power
- 35 watts TEMoo & 100 watts Multimode operations
- Hermetically sealed to meet the harshest industrial environments
- Ultra compact laser head and power supply chiller
