

# AMTEC

## Applied Manufacturing Technologies, Inc.

### Laser Technology

Lasers are utilized in marking, micro-drilling, micro cutting, micro-machining, via-hole drilling for biomedical, dental, semi-conductor and many other applications. Our high pulse energy and repetition rates guarantee high productivity. Our application laboratory can define the best process conditions for you, even design custom lasers for application specific requirements.

#### Laser Marking Systems

#### CO<sub>2</sub> Lasers

#### Excimer Lasers

#### Nd: YAG Lasers

#### Laser Marking Processes

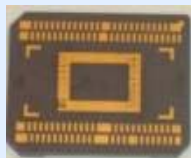

#### Laser Applications

We provide laser marking and engraving systems for automotive, electronics, medical, consumer products and other industries. Laser technology has become a critical ingredient for manufacturing industries.

### Laser Features

- Full Integrated
- Remote control
- Easy to use
- Commander Software
- High stability and Quality
- Unmatched Performance
- Productivity & Flexibility
- Complete Control
- Quick access and Maintenance
- Options to expand
