

AMTEC

Applied Manufacturing Technologies, Inc.

Printing Plates

The extensive range of cliché materials and types of production now enables customers to select a cliché matched perfectly to their requirements. You can be confident that we offer highly trained staff, state-of-the-art production facilities, wide range of hardware and software and effective structures of organization.

Cliché types developed by AMTEC

- Microflex-cliché band
- Magnet-microflex-Cliche plates
- Magnet-Aloxid-Cliché plates
- Magnet-Eco-Cliché plates
- Magnet-Aqua-Cliché plates
- Aloxid-Spezial-Cliché Plates
- record©-Spezial-Cliché Plates
- Hightech-Ceramic-Cliché Plates/cylinders

AMTEC offers precision tooled steel plates for high volume pad printing production. Steel Cliches are desirable in printing operation where contaminants or environmental concerns may lead to excessive wear of photopolymer materials. Our exclusive gold etch process yields finer edge definition resulting in superior printing clarity.
