

AMTEC

Applied Manufacturing Technologies, Inc.

Vario (60, 90, 130 Cups)

V-DUO Series

The "V" represents the rigid, v-shaped pad bridge with the two pads arranged on it at an angle of 60°. This series feature two-color machines with an ink/doctoring cup diameter of 60, 90 or 130 mm - naturally with the patented, environmentally friendly "Hermetic System" from AMTEC. The precise machines of the V series can print in four colors without problems -when using divided doctoring cups and rigid component holders.

Specifications

Model	V-60 DUO	V-90 DUO	V-130 DUO
Built-in model	Yes	Yes	Yes
Floor standing model	Yes	Yes	Yes
Supply voltage	230V/1-phase	230V/1-phase	230V/1-phase
Ink/Doctoring cup diameter	60 mm	90 mm	130 mm
Cycles/hr	Up to 1,200	Up to 1,200	Up to 800
Cliché size, max.	70 x 140 mm	100 x 215 mm	150 x 300 mm
Print image size, max.	55 mm	80 mm	120 mm
Pad stroke onto component linearly adjustable	0-160 (200) mm	0-160 (200) mm	0-160 (200) mm
Printing pressure	1,170 N	1,170 N	2,500 N
Drive	Electro-pneumatic	Electro-pneumatic	Electro-pneumatic
Control	PLC	PLC	PLC
Air consumption/cycle	9 NL	9 NL	26 NL
